**Date:** July 2, 2002

**Organization requesting change:** FPKI Technical Working Group

**Background:**

The FBCA Certificate Policy refers to the “Federal PKI X.509 Certificate and CRL Extensions Profile” and provides the URL <http://csrc.nist.gov/pki/twg/y2000/papers/twg-00-18.xls>. This is an obsolete version of the Federal PKI Certificate Profile, and refers to an obsolete IETF specification (RFC 2459).

The Federal PKI Technical Working Group has agreed upon an updated Certificate and CRL Profile. The new document is “Federal Public Key Infrastructure (PKI) X.509 Certificate and CRL Extensions Profile (1 July, 2002)” and is available at <http://csrc.nist.gov/pki/twg/y2002/papers/twg-02-18.xls>. The TWG recommends that the Policy Authority update the CP to reference the new document.
